PROFESSIONAL SUMMARY

Dedicated Backend Developer with 1.4 years of hands-on experience at Minebea Intec India Pvt Ltd, specializing in Python Django framework and web application development. Proficient in building scalable web applications, implementing CRUD operations, and developing efficient bulk upload systems for data management. Experienced in full-stack development with Django REST Framework and React integration.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript (Basics)

Frameworks & Libraries: Django, Django REST Framework, React.js, Flask

Databases: PostgreSQL, SQLite

Tools & Technologies: Git, GitHub, Postman, Swagger, JWT, OAuth, Figma

Cloud & Deployment: Render, GitHub Pages, AWS (Learning)

APIs & Integrations: RESTful APIs, Twilio API, Google OAuth, Razorpay API

Development Practices: Agile Methodology, Code Review, Manual Testing, Version Control

PROFESSIONAL EXPERIENCE

Software Design Junior Engineer

Minebea Intec India PVT LTD | January 2024 – June 2025

- Developed and maintained web applications using Django framework and Python
- Implemented CRUD operations and model creation with role-based access control
- Created bulk upload functionality for Excel data import, improving data entry efficiency
- Designed and developed HTML pages with responsive layouts using HTML, CSS, and JavaScript
- Participated in code reviews for internal development teams and maintained code quality standards
- Attended requirement gathering meetings and collaborated with cross-functional teams
- Migrated legacy applications to modern tech stack using Django REST Framework and React

KEY PROJECTS

Django Authentication System with Image Detection

July 2025 | GitHub: <https://www.github.com/PTHARRISH/Django-Auth-Image-Detection>

- Developed comprehensive full-stack authentication system with Django 5, DRF, and React frontend
- Applied multiple authentication methods: password-based, WhatsApp OTP (Twilio API), and Google OAuth
- Built advanced image upload functionality with duplicate detection using perceptual hashing algorithms

- Utilized JWT tokens for secure authentication and session management
- Technologies: Python 3.12, Django 5, Django REST Framework, React (Vite), Simple JWT, Twilio API

Multi-Feature Web Application

June - July 2025 | GitHub: <https://www.github.com/PTHARRISH/Tasks>

- Built comprehensive web application with multiple integrated features and modern UI/UX
- Implemented CRUD operations for task management with server-side pagination and form validation
- Integrated Razorpay IFSC API for real-time bank details lookup with comprehensive input validation
- Applied robust user authentication system with JWT-based session management
- Created secure file and image upload functionality with local media storage
- Built advanced cookie management system with security controls and expiration handling
- Technologies: Python 3.12, Django, React (Vite), Tailwind CSS, Django REST Framework

Little Lemon Restaurant API

December 2024 - January 2025 | GitHub: <https://www.github.com/PTHARRISH/LittleLemon>

Live: <https://littlelemon-2xet.onrender.com>

- Architected comprehensive RESTful API for restaurant management system as Meta API certification project
- Engineered complete menu management, user authentication, and order processing features
- Built scalable API endpoints following REST architectural principles and best practices
- Successfully deployed application with proper database integration and user management
- Technologies: Python, Django, Django REST Framework, PostgreSQL

EDUCATION

Master of Computer Applications (MCA)

SRM Arts and Science College | October 2021 – June 2023 | Chengalpattu, India

Bachelor of Computer Science (B.Sc.)

Ayya Nadar Janaki Ammal College | July 2018 – May 2021 | Sivakasi, India

CERTIFICATIONS

- API Development – Coursera (Meta)
- Django Web Framework – Coursera (Meta)
- Python & Django Framework Development – Udemy
- Flask Web Development – GUVI
